When will I hear the result of my application?

The time it takes Inholland to process each application is strongly dependent on the type of secondary school diploma that you have and the timing of its submission to us. Applicants, who possess internationally recognized diplomas and send them to us as soon as they have applied via Studielink, stand a greater chance to hear the result of their applications as early as possible. Prospective students who are not going to receive their diplomas before the end of their school year can already send in their transcripts, but normally you will have to wait to hear from us until we receive your their final diplomas.

The Examination board decides whether you are eligible for exemptions from year one in order to directly enter the second year.
